INTERNATIONAL AND DOMESTIC ROAD TRANSPORT

Pan Pro Logistics covers the transportation of various types of goods, from raw materials and semi-finished products to finished goods and parcels.

Our network connects different countries and markets, enabling goods to reach their destination safely, quickly, and reliably. Whether it is industrial production, trade, or e-commerce, our goal is to provide clients with flexible logistics solutions that follow their needs and support business growth.

PAN PRO LOGISTICS, THROUGH ITS SUBSIDIARY PPL HU, HEADQUARTERED IN HUNGARY, PROVIDES INTERNATIONAL TRANSPORT AND DISTRIBUTION FROM A STRATEGIC LOCATION IN THE HEART OF EUROPE.

SEA FREIGHT TRANSPORT

Pan Pro Logistics China organizes complete sea freight transportation of goods to the ports of Rijeka, Trieste, Durrës, and Piraeus.

Our service includes:

- collection of goods directly from the factory or warehouse,
- preparation of documentation and customs procedures,
- sea transport to European ports,
- unloading, customs clearance, and distribution to final destinations in Serbia and the region.

By combining sea and land transport, we ensure an efficient, secure, and optimized supply chain, regardless of the type or volume of goods.

PPL CHINA

With the opening of our representative office in China, Pan Pro Logistics provides you with direct access to one of the world's most dynamic logistics hubs – Shenzhen, in the heart of the Shenzhen–Guangzhou–Hong Kong triangle, a region with over 45 million inhabitants and the world's largest ports in close proximity.

CUSTOMS CLEARANCE

Pan Pro Logistics, through its team of experienced freight forwarders, provides a full range of customs brokerage services for the import and export of goods in Serbia and the EU.

Our support includes:

- preparation and submission of customs documentation,
- execution of customs procedures and controls,
- tariff classification and calculation of duties,
- obtaining required permits and licenses,
- communication with customs authorities on behalf of the client.

With our expertise and experience, your goods pass through customs procedures quickly, safely, and without delays, enabling smooth operations and timely import and export.

WAREHOUSING (VAS)

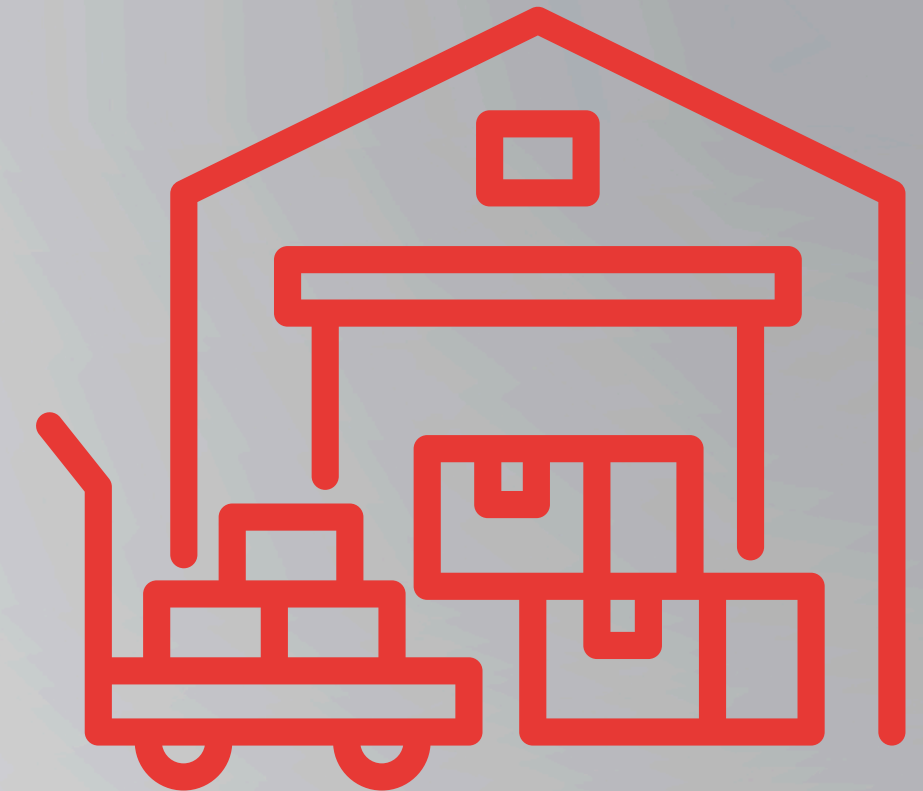

Pan Pro Logistics offers modern warehousing solutions through customs and commercial warehouses at three locations:

- Petrovaradin – 4,000 pallet positions (racked and floor storage, WMS system),
- Šimanovci – 2,000 pallet positions,
- Borča – 1,000 floor pallet positions.
-

Our warehouses provide:

- receipt and tracking of goods through the WMS system,
- physical storage and inventory management,
- order picking, packing, labeling, and sampling,
- security and control of goods,
- dispatch and distribution according to client needs.

Whether you require temporary or long-term storage, we offer flexible and reliable warehousing solutions that become an extension of your business.

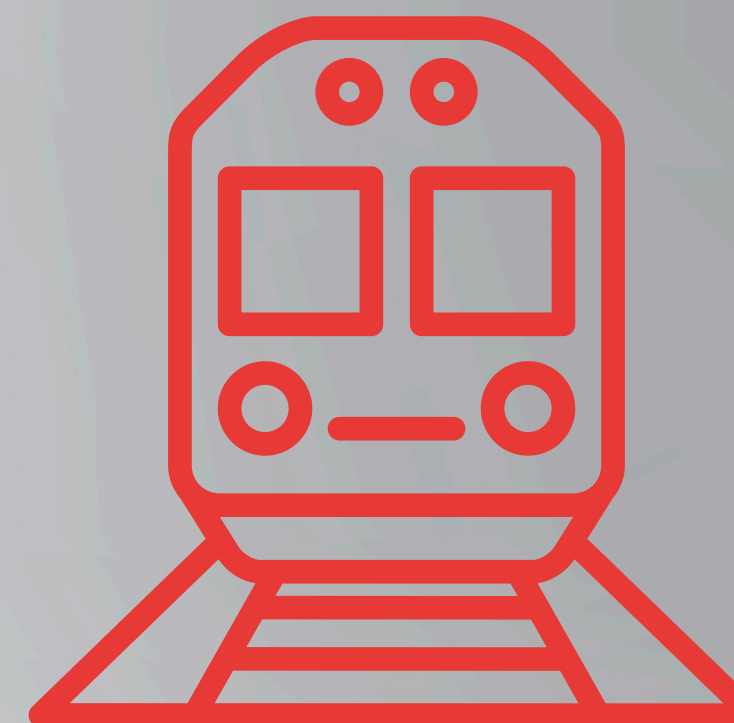

RAIL TRANSPORT

Pan Pro Logistics, in cooperation with its strategic partner Panšped, provides a complete rail freight organization service in Serbia and across the rail networks of Western, Central, Southeastern Europe, and the Balkans.

Our service includes:

- planning and booking of transport,
- administrative and customs procedures,
- organization of loading and unloading,
- real-time shipment tracking and monitoring,
- coordination with railway operators.

AIR FREIGHT TRANSPORT

While the air freight market changes day by day, PPL offers more than transportation – we deliver solutions. Compared to the standard approach that provides reliability and tracking, we go one step further:

We actively monitor regulatory changes, optimize costs through smart planning, and provide full transparency across every segment of the supply chain. Our team doesn't just look for the fastest route, but for the one that is the most reliable, fully compliant, and most cost-effective for you. That's why we are chosen by those who care about more than simply getting their goods delivered on time.

CONSULTING - COACHING - MENTORING

Pan Pro Logistics provides expert support to companies in the restructuring process with the aim of increasing business efficiency and sustainability.

Our services include:

- business and financial analysis,
- development of a restructuring strategy,
- cost optimization and financial management,
- improvement of organizational efficiency,
- support in negotiations and implementation of changes.

Coaching and employee mentoring

By combining coaching and mentoring, we encourage employee development and professional growth:

- Coaching – individual work on goals, skill development, and overcoming challenges.
- Mentoring – long-term support through the transfer of knowledge and experience from more experienced colleagues.

In this way, we build teams that grow together with the company.
